DON'T MISS THIS FOR ANYTHING

PÉZENAS is a charming little town. Its heart beats to rhythm of Molière, antique stores and art trades.

BÉZIERES, with the Allées Paul Riquet avenue and the Flower Market all day on Friday.

THE FONSERANNES LOCKS. Classified as a world heritage site, they have just been refurbished and include a new restaurant.

SÈTE, the town of Georges Brassens, has manifold places to discover: Mont Saint Clair, the Lido and the fishing port to name but a few.

MINERVE, a medieval village nestled in the heart of the Languedoc scrubland on a limestone plateau, is a former Cathar stronghold destroyed by Simon de Montfort's troops in 1210. It still has a stele in memory of a Cathar pyre from that period.

Situated at the confluence of the Cesse and the Brian, the village is also known and recognised for its wine produced for centuries by its winegrowers.
A must-see!

THE FORTRESS OF SALSES, a remarkable military work, will immerse you in the history of France and Spain.

BÉZIERES

YELLOH! VILLAGE COMMIT to 10 eco-friendly actions!

“YOU CAN
BECOME AN
ECO-WARRIOR
TOO!!!”

*Because we respect
and love nature, our
commitments and our
efforts are everyday
and every day!*

1. REDUCING WATER CONSUMPTION

We know just how sacred water is and we do everything possible to save it. For example the Yelloh! Village Le Club Farret collects the backwash water from the swimming pool filters to water its green spaces!

2. REDUCING ENERGY CONSUMPTION

... that's the aim the Yelloh! Village Les Cascades set itself by equipping most of its accommodation units with a key system that automatically switches the electricity on and off. Pretty clever, eh?!

3. OPTIMISING WASTE SORTING

The Yelloh! Village Les Bois du Chatelas has put its heart and soul into sorting and recycling! After the waste sorting bins, it's the composting system for all organic waste that's in the spotlight.

4. ENCOURAGING RESPONSIBLE PURCHASING

The Yelloh! Village Les Tournels and the Yelloh! Village Le Fayolan have stopped using

pesticides and insecticides in favour of alternative ways of maintaining their green spaces.

5. OFFERING ALTERNATIVE MEANS OF TRANSPORT

You can't hear anything? Only natural! At the Yelloh! Village La Gavina, L'Océan Breton and Le Soleil Vivarais staff travel is silent and non-polluting thanks to electric vehicles, bikes and scooters...

6. RESPECTING THE ENVIRONMENT

"Being at one with nature" is one of the objectives of the Yelloh! Village Le Bout du Monde and Douce Provence, raising animals on their farm and cultivating a garden where everything is edible.

7. PUTTING THE EMPHASIS ON LOCAL PRODUCE

The Yelloh! Village La Roche Posay loves the good things in life as much as it loves its region, which is why you'll find plenty of local produce in its grocery store. As for the Yelloh! Village Belle Plage, it favours local foodstuffs made in Brittany! Yum.

8. ENCOURAGING RENEWABLE ENERGY

The Yelloh! Village Soleil Vivarais, Le P'tit Bois and La Plaine are multiplying their initiatives to protect our planet by using solar water heaters, lights and electric panels!

9. CERTIFYING ALL OUR EFFORTS

The Green Key label has already rewarded the Yelloh! Village Parc du Val de Loire and Le Village Western. And the Yelloh! Village Les Tournels can be justly proud of the HEV (High Environmental Value) certification obtained for its vineyard.

10. RAISING HOLIDAYMAKERS' AWARENESS

Here at Yelloh! Village we are also seeking to raise your awareness of environmental issues. Through simple actions, you, parents, children and friends, can all join with us in safeguarding the natural environment and protecting our habitat!

WHAT WE DO AT *SÉRIGNAN PLAGE*

EACH YEAR WE ALSO TAKE STEPS TO
PROTECT THE ENVIRONMENT.

WE SORT & REUSE OUR WASTE.

WE MAKE EVERY EFFORT TO CONSERVE DRINKING WATER

which we obtain via boreholes in an underground natural aquifer: "La Table Astienne". We also monitor all of our water consumption.

WE'VE CONNECTED UP AND CREATED A SECOND UNTREATED WATER NETWORK (non-drinkable) to water the flowerbeds and grassed over areas.

WE FAVOUR LOW-ENERGY LIGHTING AND THE USE OF ELECTRIC VEHICLES.

WE RECYCLE WASTEWATER IN ORDER TO IRRIGATE TREES, avoid creating pollution and save drinking water for functions other than watering. (This ecological procedure was the subject of a study funded By the European Community - LIFE Environment.) You can find more information on this original sanitation procedure at the "Tourist Information Point".

WE COMBAT MOSQUITOES IN

NATURAL WAYS BY: protecting swallow nests (one swallow alone can consume up to 850 insects a day!); installing bat nest boxes (one bat eats 2,000 to 7,000 insects a night!); and installing in hot spots mosquito traps which work by imitating human respiration (using CO2).

WE ENCOURAGE THE NATURAL POLLINATION OF PLANTS by periodically introducing beehives to our campsite.

WE PROTECT PLANT BIODIVERSITY by installing palisades on the dune to prevent people trampling on rare species and channelling traffic.

WE SIFT THE EARTH that we extract during our winter work so as to reuse it for flowerbeds or landscaping.

OUR SWIMMING POOLS ARE HEATED WITH THE LATEST HEAT PUMPS to reduce our electricity consumption.

NEWLY INSTALLED ELECTRIC CHARGING TERMINALS Enabling our customers to recharge their cars.

WE PLANT OVER 2,000 DIFFERENT PLANTS EACH YEAR, FAVOURING LOCAL SPECIES WHICH ARE WATER-EFFICIENT AND REQUIRE LITTLE TREATMENT.

OUR TEAMS WORK WITH YOU, TOGETHER FOR CONSCIOUS RESPECT AND ATTENTION TO OUR SURROUNDINGS.
