**PÉZENAS** is a charming little town. Its heart beats to rhythm of Molière, antique stores and art trades.

**BÉZIERS**, with the Allées Paul Riquet avenue and the Flower Market all day on Friday.

**THE FONSERANNES LOCKS.** Classified as a world heritage site, they have just been refurbished and include a new restaurant.

**SÈTE**, the town of Georges Brassens, has manifold places to discover: Mont Saint Clair, the Lido and the fishing port to name but a few.

**MINERVE**, a medieval village nestled in the heart of the Languedoc scrubland on a limestone plateau, is a former Cathar stronghold destroyed by Simon de Montfort's troops in 1210. It still has a stele in memory of a Cathar pyre from that period. Situated at the confluence of the Cesse and the Brian, the village is also known and recognised for its wine produced for centuries by its winegrowers. A must-see!

**THE FORTRESS OF SALSES**, a remarkable military work, will immerse you in the history of France and Spain.

**LILY PASSEUR:** a boat takes you across the River Orb to Valras-Plage (in July and August).

**AND BECAUSE ACTIONS SPEAK LOUDER THAN  
WORDS,  
YELLOH! VILLAGE, HAS SET ITSELF  
3 MISSIONS, 3 CHALLENGES, 3 PROJECTS  
TO HELP SHAPE A BETTER WORLD.**

### *1. REDUCE ENERGY USE TO PRIORITISE RENEWABLE ENERGIES*

Water recovery, solar panels or heat pumps... each Yelloh! Village site works day after day to reduce its energy.

### *2. RESPECT THE ENVIRONMENT FOR A MORE SUSTAINABLE WORLD*

Each Yelloh! Village fits harmoniously into its environment, blending into an outstanding landscape and respecting the nature that surrounds it.

### *3. HELP AND INFORM HOLIDAYMAKERS*

Vegetable gardens, mini farms, fascinating activities...  
the Yelloh! Village sites endeavour to raise holidaymakers' awareness of their environment and the related commitments

# WHAT WE DO AT *SÉRIGNAN PLAGE*

EACH YEAR WE ALSO TAKE STEPS TO PROTECT  
THE ENVIRONMENT.

## **WE SORT & REUSE OUR WASTE.**

**WE MAKE EVERY EFFORT TO CONSERVE DRINKING WATER** which we obtain via boreholes in an underground natural aquifer: "La Table Astienne". We also monitor all of our water consumption.

**WE'VE CONNECTED UP AND CREATED A SECOND UNTREATED WATER NETWORK** (non-drinkable) to water the flowerbeds and grassed over areas.

**WE FAVOUR LOW-ENERGY LIGHTING AND THE USE OF ELECTRIC VEHICLES.**

**WE RECYCLE WASTEWATER IN ORDER TO IRRIGATE TREES**, avoid creating pollution and save drinking water for functions other than watering. (This ecological procedure was the subject of a study funded By the

European Community - LIFE Environment.) You can find more information on this original sanitation procedure at the "Tourist Information Point".

**WE COMBAT MOSQUITOES IN NATURAL WAYS BY:** protecting swallow nests (one swallow alone can consume up to 850 insects a day!); installing bat nest boxes (one bat eats 2,000 to 7,000 insects a night!); and installing in hot spots mosquito traps which work by imitating human respiration (using CO<sub>2</sub>).

**WE ENCOURAGE THE NATURAL POLLINATION OF PLANTS** by periodically introducing beehives to our campsite.

**WE PROTECT PLANT BIODIVERSITY** by installing palisades on the dune to prevent people trampling on rare species and channelling traffic.

**WE SIFT THE EARTH** that we extract during our winter work so as to reuse it for flowerbeds or landscaping.

**OUR SWIMMING POOLS ARE HEATED WITH THE LATEST HEAT PUMPS** to reduce our electricity consumption.

**NEWLY INSTALLED ELECTRIC CHARGING TERMINALS** Enabling our customers to recharge their cars.

**WE PLANT OVER 2,000 DIFFERENT PLANTS EACH YEAR, FAVOURING LOCAL SPECIES WHICH ARE WATER-EFFICIENT AND REQUIRE LITTLE TREATMENT.**

**OUR TEAMS WORK WITH YOU, TOGETHER FOR CONSCIOUS RESPECT AND ATTENTION TO OUR SURROUNDINGS.**
